To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Brianna D'Alessio. Brianna will be completing her student internship at Leonardo Grade School, located in Middletown, NJ. She was assigned to teach a 1<sup>st</sup> grade class under the direction of cooperating teacher Jennifer Cerwinski.

Brianna is a delightful, hardworking young lady. She has been diligent in perfecting her skills as an educator. Her preparation has paid off in the structuring and implementation of well planned, differentiated lessons. She has incorporated relevant technology into her daily planning to help students make content connections in any number of ways. Brianna is creative and captures the attention of a diversified group of youngsters. She welcomed and applied constructive changes and suggestions to her lessons and classroom management techniques. Her students have gained the experience of being taught by a well prepared and innovative individual.

Brianna worked well with her students, cooperating teacher and classroom aide. Her principal was always supportive and very pleased with Brianna's work within the school setting. Her positive attitude was viewed on a daily basis as she and her cooperating teacher worked to ensure all lessons taught were of high quality.

I recommend Brianna's placement as a professional and feel she will be a compliment to any district seeking quality educators.

Please do not hesitate to contact me if you feel I might be of further assistance to you.

Sincerely,

Eileen Kubaitis  
Clinical Supervisor @ Georgian Court University
